

# GELATIN MANUFACTURERS INSTITUTE OF AMERICA

## **Statement on Natural**

The GMIA (Gelatin Manufacturers Institute of America) confirms and fully supports the definitions and technical criteria that gelatin and collagen hydrolysates/peptides are considered natural ingredients according to the ISO standard: ISO/TS 19657:2017 published in December of 2017.

This standard specifies definitions and technical criteria (acceptable sources, materials and processes) to be fulfilled for food ingredients to be considered as natural.
